

Experiment - 3

Develop a flowchart in figma depicting the operation of a network switching subsystem in a mobile cellular system

Aim: To draw a flowchart in figma depicting the operation of a network switching subsystem in a mobile cellular system

Procedure

1. open figma
2. Create a new file
3. click on the resource icon & make click on the plugine
4. search for the flow chart
5. Drag & drop the shapes on the screen
6. Now, enter the content on the shapes & connect them through Arrows
7. Graeeping & allignment
8. Review and edit
9. Save & share.

Result: Hence flowchart in figma depicting the operation of network switching subsystem in a mobile cellular system is implemented Successfully.
